Objective

Senior Stage at the Faculty of Computer Science and Artificial Intelligence, Cairo University. Backend-focused developer with hands-on experience in .NET development and Generative AI applications. Strong foundation in data structures, algorithms, and system design, with practical experience building scalable and maintainable backend systems. Passionate about problem-solving, clean architecture, and leveraging AI to build intelligent, real-world solutions.

Education

Bachelor's Degree, Computer Science

Faculty computer science and artificial intelligence at Cairo University

Sep 2022 - Jul 2026

Experience & Internships

.NET Developer Intern at Middleware

March 2025 – Sep 2025

- Built scalable .NET APIs and improved performance using LINQ, middleware, and dependency injection.
- Managed databases and improved application security and performance, using LINQ in API Project.
- Used dependency injection and middleware to solve real-world challenges in a professional setting.
- Improved API response time optimizing LINQ queries.
- Reduced database query load through caching.
- **Top Skills:** SQL Server | C# | Git, GitHub | ASP.NET Core | LINQ | EF Core | .NET MVC | .NET Web APIs

Technical Skills

- Backend: [C# | OOP | ASP.NET Core | MVC | Web APIs]
- Databases & ORM: [Microsoft SQL Server | LINQ | Entity Framework | EF Core]
- Core Concepts: [Problem Solving | Data Structure | Algorithms | SOLID Principles | Design Patterns]
- Deployment: [Git | GitHub | GitHub Actions]
- Frontend: [HTML5 | CSS3 | JavaScript]
- Languages: [C++ , C# , Python , Java , HTML , CSS , JavaScript]
- Platforms : [n8n , AWS]

Soft Skills

- [Research - Team Work - Time Management – Communication Skills]

Language

- Arabic
- English
